The institution affirms that the investigations proposed in this application will not be performed without the approval of the institution's relevant regulatory bodies (institutional review board, institutional animal care and use committee, recombinant DNA committee, biosafety committee, etc.). The institution specifically affirms that any research involving human subjects will conform to the principles of the Declaration of Helsinki of the World Medical Association and Title 45, US Code of Federal Regulations, Part 46 Protection of Human Subjects and that any research involving animals will conform to the Guiding Principles in the Care and Use of Animals approved by the Council of the American Physiological Society.

We are familiar with this application for a Full-Year Research Fellowship of the Heart Rhythm Society and with the policy of the Society regarding this form of support. In the event this applicant is awarded the scholarship, our facilities are available and adequate to support the proposed research fellowship project.
