

A Discussion of Transcutaneous Electrical Vagus Nerve Stimulation to Suppress Premature Ventricular Contractions: A Crossover, Randomized Clinical Trial (NoVa-PVC)

Hosted by Sandeep A Saha, MD, MS, FHRS

Article Information:

Article for Discussion: [Transcutaneous Electrical Vagus Nerve Stimulation to Suppress Premature Ventricular Contractions: A Crossover, Randomized Clinical Trial \(NoVa-PVC\)](#)

Authors: Stefanos Zafeiropoulos MD, MBA, Kristie Coleman MPH, RN, Jonathan Kogan, Dimitrios Varrias MD, Jonas Leavitt BS, Alexandra Bekiaridou MD, Theodoros Zanos PhD, Stavros Zanos PhD, MD, Stavros Stavrakis PhD, MD, Stavros Mountantonakis MD, MBA

Publication: JACC: Clinical Electrophysiology

Today's Host

Sandeep A Saha, MD, MS, FHRS
Oregon Heart Center PC

Today's Contributors:

**Charles A. Henrikson,
MD, MPH, FHRS
OHSU Knight Cardiovascular Institute**

**Arun R. Mahankali Sridhar,
MBBS, MPH, FACC
Pulse Heart Institute**
